Call for Papers - Software Tools and Component-Based Environmental Modelling

Component-based modelling of environmental systems has come to the fore in recent years, as researchers and developers realise both the advantages, in terms of efficiency and re-use, and disadvantages, in terms of technical and conceptual compatibility, of using components. This session will explore advances in component-based environmental modelling, including software technologies, linking and compatibility concepts, example applications and mixed-modelling methods.

Session Chair: Robert Argent, University of Melbourne, Australia
Email: r.argent@unimelb.edu.au

Paper Submission Guidelines

Please send your abstract **before November 24, 2006**. Only electronic submissions **IN PDF FORMAT** are accepted. Please send your electronic PDF submission to the conference manager, Linda Robson (linda@isess.org). Only abstracts sent to this email address, in PDF format will be reviewed. Acceptance will be based on the abstracts and authors will be informed by December 22, 2006. Final versions of accepted papers AND registration of one author per accepted paper must be submitted before February 25, 2007. These papers will included in a pre-conference publication, tentatively under an IFIP ISBN.

Venue

The conference will tentatively be held at the Crown Plaza Hotel, Prague, Czech Republic (www.ichotelsgroup.com). The hotel is located in the residential embassy district, 15 minutes from the airport and 10 minutes from the heart of the city.
