

## Call for Papers

ISESS ([www.isess.org](http://www.isess.org)) is being held October 6-9, 2009 at the beautifully restored Palazzo Cavalli Franchetti in Venice, Italy. This venue is associated with the Istituto Veneto di Scienze, Lettere ed Arti.

Papers are being sought in the following areas:

1. Furthering the cause of computer and software systems in environmental modelling, monitoring, and protection.
2. Advances in sensor networks.
3. New and maturing techniques in modelling and decision support.
4. Sensitivity and risk analysis.
5. Case studies which show innovative features of major environmental informatics projects, and projects in support of environmental initiatives by governments and NGOs.
6. Contributions to the corpus of software systems on human factors, product life-cycle analysis, water use and security, airshed monitoring, environmental data mining, nonpoint source pollution and enviro-economic assessment strategies.

This list is not exclusive and we are happy to consider any papers which relate to the goals and objectives of ISESS.

### IMPORTANT DATES:

Abstract Deadline – March 2, 2009

Decision Notification – March 30, 2009

Deadline for Receipt of Full Paper – April 27, 2009

**FULL REGISTRATION MUST ACCOMPANY PAPER SUBMISSION**

Reviewers' Comments Returned to Author - May 29, 2009

Final Copy Deadline - July 3, 2009

Papers which have met all requirements by July 3, 2009 will appear **IN FULL** (subject to page limitations) in the ISESS 2009 Proceedings, as part of the IFIP Conference Series. Please feel free to contact Linda Robson, Conference Manager ([linda@isess.org](mailto:linda@isess.org))
